### Activity:

Gather the children in a circle and read Art With Heart, showing everyone the illustrations. After the reading, review the meaning of a noun, and how it identifies a person, place, or thing. Discuss the various types of nouns, and how they are used to build and create a storyline. Now hand out the form for this activity. Have the students go back into the story, page by page, and find six nouns for each of the three categories. It's a great story...and even better, the second time around!!

### Assessment:

Students will read for informational purposes. They will be able to identify and understand the way specific words are used to form and develop complete sentences.
