

# Art With Heart

## Lesson #5

**Age:**  
Kindergarten

### Objective:

- Students will use objects to represent whole numbers from 1 to 10.
- Students will understand the effects of addition and subtraction on whole numbers from 1 to 10, including the inverse relationship of the two operations.

### Materials:

Art With Heart by Julie Woik

Pencils or Color Pencils

Print out form that correlates with this lesson.

Optional - Send home letter to parents regarding this lesson.

See attached *Letter for Parents*

### Activity:

Gather the children in a circle and read Art With Heart, showing everyone the illustrations. After the reading, hand out the form showing the mathematical equations. Ask the students to find the correct answers.

### Assessment:

Students understand the effects of addition and subtraction on whole numbers from 1 to 10, by working out the mathematical equations provided.
