

The Garden Gathering

Lesson #2

Age:
5th Grade

Objective:

- Students will read and organize information to perform a specific task.
- Students will clarify understanding of text by re-reading, self-correction, and class or group discussion.
- Students will understand the effects of operations on numbers and the relationships among these operations, selects appropriate operations, and computes for problem solving.

Materials:

The Garden Gathering by Julie Woik

Pencils or Pens

Optional - Send home letter to parents regarding this lesson.

See attached *Letter for Parents*

Activity:

Gather the children in a circle and read The Garden Gathering. After the reading, hand out the form that correlates to this lesson. Have the students read each puzzle and figure out the answer. They may work in pairs.

Assessment:

Students use reading and organizing information to understand the effects of operations on numbers and the relationship among these operations, by completing the activity.
