

# My designer Brochure Will sell Lilly's book FOR SURE!

**Brochure:** *a type of pamphlet that contains pictures and information about a product or a company.*

**Now that we know what a brochure is...  
LET'S MAKE ONE!!**

Author Julie Woik would **LOVE** to see what kind of brochure you can make to help customers understand why they'd want to buy her fifth book in the series, *The Life and Times of Lilly the Lash: Jungle Jive*.

After everyone is done making the brochures, your teacher/parent can send them to Julie, and she will let you know which one was the best and why!!

Use colors, colored pencils, markers, magazine images, exciting words, and anything else you can think of to make your brochure informational and super interesting to anyone who might want to know more about the book.

You will want to let customers know things like:

- What is the book *Jungle Jive* about?
- What makes the book so special?
- Is it just a book, or does it offer more?
- Are there activities that go with the book?
- Are the illustrations good?
- Does it rhyme?
- Do others like it? Who? What did they say?
- How would they order a book? You might want to add Julie's website **[www.lillythelash.com](http://www.lillythelash.com)**
