

Jungle Jive

Lesson #5

Age:
4th Grade

Objective:

- Students will read and organize information to perform a specific task.
- Students will understand the effects of operations on numbers, will select appropriate operations, and compute for problem solving.

Materials:

Jungle Jive by Julie Woik

Pencils

Print out form that correlates with this lesson.

Optional - Send home letter to parents regarding this lesson.

See attached *Letter for Parents*

Activity:

Gather the children in a circle and read Jungle Jive, showing everyone the illustrations. After the reading, hand out the form that correlates to this lesson. Have the children read each multiplication puzzle and figure out the correct answer. Make sure they show their work!!

Assessment:

Students use reading and organizing information to understand the effects of operations on numbers and the relationship among these operations, by completing the activity.
