

The Kacklin' Kitchen

Lesson #1

Age:
1st Grade

Objective:

- Students will understand and apply various concepts of counting; by 2's, 3's, 5's, 10's, and 100's.
- Students will use number patterns to demonstrate the understanding of the whole number system.

Materials:

The Kacklin' Kitchen by Julie Woik

Markers or Pencils

Print out form that correlates with this lesson.

Optional - Send home letter to parents regarding this lesson.

See attached *Letter for Parents*

Activity:

Gather the children in a circle and read *The Kacklin' Kitchen*, showing everyone the illustrations. After the reading, hand out the form in which students will use their knowledge of addition and patterns to problem solve.

Assessment:

Students recognize and select the appropriate method to problem solve when involving addition of whole numbers displayed in a specific pattern.
