

The Kacklin' Kitchen

Lesson #3

Age:
3rd Grade

Objective:

- Students will understand the effects of operations on numbers and the relationships among these operations.
- Students will select the appropriate operation to solve specific problems involving multiplication.

Materials:

The Kacklin' Kitchen by Julie Woik

Pencils or Pens

Print out form that correlates with this lesson.

Optional - Send home letter to parents regarding this lesson.

See attached *Letter for Parents*

Activity:

Gather the children in a circle and read The Kacklin' Kitchen, showing everyone the incredible illustrations. After the reading, print the form in which students will use their skills to correctly solve the multiplication problems.

Assessment:

Students will use their age-appropriate knowledge of whole numbers and will understand their effects in relation to one another when operations such as multiplication are used in mathematical equations.
