"The Beauty Buds" are a joyful singing group at school. Sometimes their sound goes flat, because the group is tired.

Gabe the Grasshopper is rather unhappy. He often picks on others and sometimes gets in fights.

Another classmate who is friends with Gabe has asked him to try being nice to others. He suggested that Gabe ask others to join them in playing a game at recess, instead of picking on them, as they'd like him better and he'd feel good about it too.

What do you think Gabe's response is going to be?
