

# The Little Building

## Lesson #4

**Age:**  
4<sup>th</sup> Grade

### Objective:

- Students will determine time-based measurements in real-world situations.
- Students will select and use the appropriate units and instruments for measurement to achieve the degree of precision and accuracy required.

### Materials:

The Little Building by Julie Woik

Pencils or Pens

Print out form that correlates with this lesson.

Optional - Send home letter to parents regarding this lesson.

See attached *Letter for Parents*

### Activity:

Gather the children in a circle and read *The Little Building*, showing everyone the detailed illustrations. After the reading, have the students utilize the time on the watch to solve the various scenarios.

### Assessment:

Students solve problems involving time measurement. They will determine and utilize appropriate instruments in which to measure in real-world situations.
