

The Little Building

Lesson #2

Age:
Pre-Kindergarten

Objective:

- Students will recognize the different ways numbers are represented and used.
- Students will have a greater understanding of adding and subtracting objects in a grouping.

Materials:

The Little Building by Julie Woik

Pencils

Print out form that correlates with this lesson.

Optional - Send home letter to parents regarding this lesson.

See attached *Letter for Parents*

Activity:

Gather the children in a circle and read *The Little Building*, showing everyone the illustrations. After the reading, hand out the form for students to complete. Students will use their adding and subtracting skills to complete the activity.

Assessment:

Students recognize the value numbers hold and begin to understand the result that occurs when adding and subtracting items in a particular transaction.
