

The Toy Store

Lesson #5

Age:
4th Grade

Objective:

- Students will read and organize information in order to complete a task.
- Students will use their knowledge of appropriate units and instruments of measurement to problem solve.

Materials:

The Toy Store by Julie Woik

Pencils or Pens

Optional - Send home letter to parents regarding this lesson.

See attached *Letter for Parents*

Activity:

Gather the children in a circle and read The Toy Store. After the reading, hand out the form for this lesson. Discuss how sharing can be more than just physically giving someone something. Divide the children into groups. Ask them to **share** their knowledge of mathematical language, and place the first letter of the given word in front of the correct definition. The group that gets the most answers correct in the allotted time (time period is up to you), gets to do something fun like stand in the front of the line for lunch!!

Assessment:

Students will participate as a contributor in a group, sharing their knowledge to complete the task in a timely manner.
