

Dear Julie Waik,

Thank you so much for coming to our school and teaching us so many ^{cool} things! I thought that the new book was amazing and I loved the message and lesson that you portrayed. I learned quite a bit from what you told us about the business section of writing a book. Thank you for teaching us that because a lot of people never learned that and it could help us in the long run. That story you told us was hilarious and it seemed that these stories were destined to be written. Thank you so much for all that you've done for us and the thousands that will fall in love with Lilly!
