Lily The Lash

I might write a theme song
(if I knew how to write a
music for a theme song)
There could be a contest
of who could write the best
story with the best ideas of
themselves with Lily. You
could put something on
the web to e-mail your
picture for the movie send
yours your pet anybody's
for the movie & the video
game, about your writing: For the movie
where the lashes hang out
should be up on the clouds &
all these houses look like eyes
& all the people Lily helped have
to come together when her home
cloud evaporates to help
save the lashes the video
game should have the same
idea, there should be a baby
