

Her tales offered knowledge,
but to laugh, was the goal.
Ms. Lilly the Lash
was so good for my soul.
She'd ask me
to listen,
to learn,
and to think.
"In that very order!"
she'd advise with a wink.

Lilly the Lash
has really good advice!!

She feels that
if we **LISTEN**...
we can **LEARN**...
and then we should
take the time to
THINK!

Below, write something that you've recently listened to. Then talk about what you learned from that experience, and then tell us what you think about what you've learned and what you might do with that information.
